Hi ,

As our American friends head into Thanksgiving, and we Canadians have enjoyed our first little smattering of snow, there's a definite sense of excitement in the air. Maybe you feel it too?

We're celebrating and grateful for a new release of APEX (22.2), some community awards, and of course, the most wonderful time of the year...

Faster with Cary Millsap and the Insum Insider

We have a special Insum Insider session featuring author and world-renowned speaker Cary Millsap. He recently released a new book, [Faster: How to Optimize a System](#). The contents had our team buzzing.

With his unique storytelling skills, Cary will share his experience and talk us through things we should all consider when trying to make our applications FASTER.
